

Zgłoszenie tematu pracy dyplomowej :: **STUDIA I STOPNIA** ::

Promotor:	dr hab. Jozef Kapusta, prof. UP
Temat pracy dyplomowej (j. polski, j. angielski):	Moodle Template Development for Modern Virtual Learning Environment
Zakres pracy i oczekiwane rezultaty praktyczne:	<p>Templates in Moodle are the area that helps you to create a different look and feel for your Moodle system. These templates act as the custom "skins" which help institutions to make their Moodle environment stand out from the rest. Moodle has a powerful themes system that allows a variety of effects through the use of responsive design, HTML5, and CSS. Templates can be designed for specific devices such as the mobile phones or tablets.</p> <p>The aim of bachelor's thesis is to develop templates for Moodle, implemented at the Instytut Informatyki. The primary goal of the new themes' development is a creation of learning environment based on the latest version of Moodle. The created templates will correspond with the new Pedagogical University web page design.</p>
